

## AP Document Coding, Routing & Approval

hh2 Document Flow streamlines financial document management for construction contractors, simplifying the Accounts Payable process and providing visibility into the financial status of your projects. Key benefits include accurate progress billing and improved cash flow.

With hh2 Document Flow, you can:

- Sync AP documents with a contractor-focused integration.
- Automate document routing and approval using custom workflows.
- Go paperless, reduce errors, and minimize manual input with
   advanced OCR Technology.

#### **Invoice Acquisition Management**

Use multiple methods to easily acquire invoices with hh2 Document Flow.

- Configure your scanner to save searchable pdf formatted scans to a network folder monitored by our Integration Client.
- Scan an AP email inbox for incoming invoices.
- Upload invoices using a web browser.
- Manually capture invoices directly from the app.

### **Credit Card Management**

Acquire, code, and approve credit card transactions seamlessly.

- Employees scan credit card receipts and code them at the point of purchaase.
- Convert hard copies into searchable text using battle-tested Optical Character Recognition (OCR).
- Automatically associate receipts with credit card transactions.

# hh2 Document Flow

**Document Routing & Approval** 

### Intuitive Invoice Coding & Approval

hh2 Document Flow allows for flexible and customizable coding, routing and approval of invoices, receipts, and reimbursements.

- Distribute invoices to different jobs, commitments, commitment items, cost codes, categories, expense accounts, AP accounts, or tax groups.
- Route each distribution up its own approval path, based on job, group, or specific management pathways. Add in decisions, actions, and more.
- Create as many custom approval paths as your company needs to get the right eyes on each expense as they come in.
